Take A Stand!

Dear Community Partner,

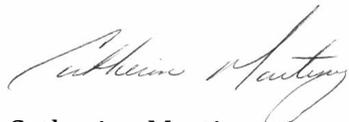

April is **Sexual Assault Awareness Month**, a time when you can help raise public awareness about sexual assault, educate individuals on how to prevent sexual violence and where to seek resources. You can impact the lives of survivors by joining many of the partnering businesses and organizations to go “casual for a cause” on April 28, 2021, or by making a small gift in honor of survivors. **There is No Excuse and Never An Invitation to Harass, Abuse, Assault or Rape.**

Last year, 687 individuals impacted by sexual violence received FREE counseling services and support on their journey of emotional hope and healing. By choosing to participate, you are communicating a message to stand against the erroneous and destructive attitudes about sexual harassment, abuse, assault and rape. This is a day your company/organization can choose to bring about change and support survivors. This is a day your employees can be involved by making a small donation to make a big difference in the life of a survivor.

When you donate, you are helping the Sexual Assault Nurse Examiners and Volunteer Advocates provide specialized and compassionate medical services to victims following an assault. With your support, the Legal Advocate will be with families while they navigate the criminal justice system, and the master’s level therapists can be a guide on a survivor’s journey to healing. In addition, your commitment will impact the creative approaches to sexual assault prevention with local schools and groups.

Sign up your company today to participate on Wednesday, April 28th or on any day of any month to show your commitment in taking a stand to bring change and awareness. For more information please call me at 989.393.4229 or email me at cmartinez@cfs-saginaw.org. Thank you for your time and consideration to support the Sexual Assault Center of Child & Family Services.

Sincerely,

Catherine Martinez
Fundraising & Community Awareness Coordinator
